Pydio Enterprise Distribution : the simple, secure, accessible solution to share and sync your company's files

Why is Pydio the right solution for your company?

Protecting, sharing, and organizing your company's data is critical for your operation. Pydio, the file share and sync solution, brings you a secure and comprehensive response.

• Security : installed on the infrastructure of your choice, you master the security of your data

• Acclaimed and mature : over 1 million downloads, used by prestigious references worldwide.

• Lowest TCO : by using your existing storage infrastructure, and servers, you'll reduce OPEX compared to an online storage solution.

• Guaranteed : Level 3 support provided by Pydio's core team backed by strong SLAs

• Open Source : our community of contributors, and our code transparency makes Pydio a viable long term choice

• Efficient : Easy to install and use for all users (administrators and end users)
